Formation

École de technologie supérieure ÉTS | Bachelor In Software Engineering *Montreal, QC*
NOTABLE COURSES: GENERAL DEV, APP & MOBILE DEV, NETWORKING, CYBER SECURITY, BACKEND DEV, DEVOPS *Sep 2020 - Aug 2025*

Vanier College | DEC in Computerized Systems/Computer Engineering *Montreal, QC*
NOTABLE COURSES: SOFTWARE DEV, ROBOTICS, NETWORKING, ELECTRICAL SYSTEMS, MICROCONTROLLERS *Aug 2015 - May 2019*

Professional Experience

Airbus Canada *Montreal, QC*
SOFTWARE ENGINEER INTERN – PLM / DIGITAL TRANSFORMATION *Sep 2025 - Dec 2025*
- Developing an **internal web application** with **AWS Cloud integration** for data processing and backups.
- Replacing **legacy Excel systems** with a new **relational database and web interface** to modernize workflows.
- Supporting **cloud automation** and **infrastructure improvements** as part of ongoing digital transformation efforts.

Sunlife Financial *Montreal, QC*
MOBILE DEVOPS INTERN *Apr 2025 - Present*
- Currently assisting in the setup and optimization of CI/CD pipelines using **Jenkins** and **Maven**.
- Contributing to automation tasks with **Groovy** and supporting code quality checks via **SonarQube** and **Checkmarx**.
- Gaining exposure to **Gradle** build systems, infrastructure processes, and **DevOps** security tools.

MOBILE APPLICATION DEVELOPER INTERN *Jan 2023 - Apr 2023*
- Developed and integrated **5+ features** in the **MySunlife** app using **Kotlin**, **Jetpack Compose** & **XML**.
- Participated in **daily scrums**, completing **user stories** in **Jira**, & presented updates to various teams.
- Created and optimized **graphic assets** using **Photoshop** & **Figma** enhancing app performance.

OSS TECHNICIAN INTERN *Sep 2021 - Dec 2021*
- Installed, configure & image new hardware/software and **performed system updates.**
- Maintained & **configured IT systems**, ensuring optimal equipment & addressing **tech problems** using **C#**
- Provided **IT support** for **workstations**, ensuring operation & resolving **hardware/software issues.**

Adaptavist *Montreal, QC*
APPLICATION ADMINISTRATOR INTERN *Sep 2024 - Dec 2024*
- Managed **5+** Atlassian projects, configuring **permissions**, **automations** and developing **10+** custom
  scripts using **ScriptRunner** to improve client **workflows** and efficiency.
- Provided guidance ensuring **SLA** compliance to customers such as **Spotify**, **Draftkings** and **Rexel.**

VortexApp *Laval, QC*
APP/WEB DEVELOPER *May 2018 - Sep 2019*
- **Developed and modified static, e-commerce websites** using platforms like **OpenCart**, **Shopify**,
  and **WordPress**, **Python & C#** sites, presented & delivered **responsive** and **SEO-friendly websites** for clients.
- Led a **development team** in creating and optimizing **iOS & Android applications**, ensuring
  timely project completion and **enhanced functionality.**
- **Designed & edited visuals** using **Photoshop** to enhance **user interface (UI)** and **user experience (UX).**

Professional Knowledge

Programming Languages:	Java, C#, C, Groovy, Bash/Shell, Python, PHP, Assembly
App Development Languages:	Kotlin/Jetpack Compose, Dart/Flutter, XML, HTML, CSS, Javascript/React, TypeScript
Web Platforms:	Cpanel, GoDaddy, WordPress, OpenCart, Shopify, CodeIgniter
Devops Applications:	Jenkins, SonarQube, CheckMarx, AWS, Docker, Gradle, Maven, Kubernetes, Bitbucket
Development Environments:	VSCode, IntelliJ, Android Studios, NodeJS, MPLABX, PGAdmin, Docker Desktop
Design Applications:	Figma, Axure, Autodesk eagle/Inventor, PlantUML, LucidChart, Autodesk eagle, Unity, Blender
Certificates:	The Complete Web Dev Cours, Android App Dev Masterclass Kotlin, Jenkins: Beginner To Pro

Miscellaneous Projects

App Project – PFE | A React/Typescript Haptic App	*Reference: Demo available upon request*
App Project: DisasterDefender | A Dart/Firebase API Map & AI shelters App	*Reference: https://shorturl.at/m1JaQ*
App Project: Wordle-Copy App | A Kotlin Wordle-Like App	*Reference: https://shorturl.at/3r2xb*
Web Project: BloodCheck | A Cloud & React Web App verifying my BP	*Reference: https://shorturl.at/JneBZ*
Web Project: My Wedding Website | A Website with NODE.js & Javascript	*Reference: https://youtu.be/nai5s9m20jo*
Web Project: My Portfolio | A Website to learn more about me	*Reference: https://shorturl.at/1Qp9x*
Hope on Welfare Avenue | Adaptavist charity event organized by me	*Reference: https://shorturl.at/RxQ9j*
Sunlife CI Challenge | AI Copilot Solution Project	*Reference: https://shorturl.at/03bTZ*
Objectif Adaptavist | Secondary project to solve an internal Jira problem	*Référence: Jean-Theo Vinet*
Sunlife Coop Challenge | Solution Presentation to VP Allan Porter	*Reference: Shelley Balfour*
